Date: _____ DOB: _____ Phone: _____

Patient Name: _____ Diagnosis: _____

Address: _____ City: _____ State: _____ Zip: _____

Anesthetic:

- Cocaine Solution (any concentration)
- Lidocaine Solution 0.5-0.4%
- Pilocarpine Preservative Free Solutions 0.1% to 6%
- Proparacaine Preserved or PF (0.03%, 0.05%, 0.1%, 0.25%) Solution
- Proparacaine 0.05% PH Adjusted Preserved Solution
- Tetracaine 0.5% PF Cmpd Solution
- Tetracaine 0.5% Ointment
- Tetracaine HCL 0.05% Preserved and Stabilized Solution

Angiogenesis Inhibitor:

- Bevacizumab (Avastin) Cmpd Inj (various doses available)

Antibiotic Aminoglycoside:

- Amikacin Solution 10-50mg/ml
- Gentamicin Solution, Fortified (available Preservative Free)
- Gentamicin Preservative Free 3mg/ml Solution
- Tobramycin 0.3% Preservative Free Sol
- Tobramycin Solution, Fortified (available Preservative Free)

Antibiotic β -lactam:

- Cefazolin Suspension, Fortified
- Cefazolin Suspension
- Ceftazidime Solution

Antibiotic FQ:

- Ciprofloxacin 0.3% Preservative Free Solution
- Levofloxacin 5-25mg / ml Solution

Antibiotic – Sulfonamide:

- Sodium Sulfacetamide 10%-30% Preservative Free Solution
- Sulfamethoxazole / Trimethoprim Solution

Antibiotic Tetracycline:

- Doxycycline 0.025% or 0.1% Solution
- Tetracycline 1% Preservative Free Ointment

Antibiotic, Miscellaneous

- Bacitracin Solution 5,000 or 10,000 u/ml
- Chloramphenicol 0.5% Preservative Free Solution
- Chloramphenicol 1.0% Ointment
- Clindamycin 1% Ointment
- Clindamycin Preservative Free Suspension
- Metronidazole 0.5% Preserved or Preservative Free Solution
- Metronidazole 0.75% ointment
- Mitomycin Injection or Solution (all strengths)

- Polymixin/Trimethoprim Preservative Free Solution
- Vancomycin 20mg/ml, 25mg/ml or 50mg/ml Solution

Anticholinergic:

- Atropine Sulfate Solution 0.125% to 1% PF
- Heparin PF Solution

Antifungal:

- Amphotericin 0.1-0.5% Solution
- Clotrimazole 1% Suspension
- Fluconazole 2mg/ml Solution
- Itraconazole 1% Suspension
- Ketoconazole 5% Suspension in Peanut Oil
- Miconazole Nitrate 1% Suspension
- Natacyn Suspension
- Neomycin 15mg/ml Suspension

Antihypertensive, Nitrate:

- Isosorbide 45% Cmpd Oral Solution

Anti inflammatory NSAID:

- Diclofenac Sodium 0.1% Preservative Free Solution
- Indomethacin 0.5 or 1% Suspension

Anti-inflammatory Steroid:

- Dexamethasone Na Phos Injection 4-24mg/ml PF
- Dexamethasone Sodium Phosphate 0.1% Preservative Free Solution
- Dexamethasone 0.05% Ointment
- Dexamethasone 0.05% Lanolin Free Ointment
- Medroxyprogesterone Acetate 0.5% or 1% Suspension
- Methylprednisolone Na Succinate Preservative Free Solution
- Prednisolone Acetate Preservative Free Suspension
- Prednisolone Sod Phos Preservative Free Solution
- Triamcinolone 40mg/ml Preservative Free Compound Injection

Antioxidants:

- Acetyl Cysteine 5-20% Solution
- Ascorbic Acid 10% Suspension

Antivirals:

- Acyclovir 3% Ointment
- Idoxuridine 1% or 0.1% Solution
- Idoxuridine 0.5% Ointment
- Trifluridine 1% Preservative Free Solution
- Trifluridine 0.5% Compounded Ointment

Unique Medications For Your Individual Patients

Ophthalmology Fax Prescription Form • 805.733.2061

Chelating Agent:

- EDTA Preserved 0.4% to 3%

Combination Products:

- Bacitracin 400u/gm/Dexamethasone 0.05% Ointment
- Pilo 1%/Epi 1% Cmpd Solution
- Tobramycin 0.3%/Dexamethasone 0.1% Solution

Dry Eyes:

- Castor oil 2% Ophthalmic Suspension
- Cyclosporine 0.05% /Dexamethasone 0.01 % in Cyclodextran Solution
- Cyclosporine 0.05% in Cyclodextran Solution
- Cyclosporine 0.05-2% Suspension in Gum Cellulose
- Cyclosporine 0.2% Ointment
- Dehydroepiandrosterone (DHEA) Ophthalmic Suspension 0.5-1%
- Methylcellulose Preservative Free Solution
- Retinoic Acid (all trans) 0.01% Ointment
- Retinoic Acid (all trans) 0.01% or 0.005% Suspension
- Sodium Carboxy Methylcellulose Gel
- Tacrolimus 0.02% Cmpd Ointment
- Tacrolimus 0.02% Cmpd Suspension

Eye Wash:

- Boric Acid Ointment

Glaucoma Agent Cholinergic:

- Demecarium bromide 0.125-.25% Ophthalmic Solution

Glaucoma Agent Prostaglandin Analog:

- Latanoprost 0.0025% Preservative Free Solution

Glaucoma Agent Agonist:

- Clonidine Preserved or Preservative Free Solution
- Phenylephrine Preservative Free Solution 2.5% or 10%

Hemostatic Agent:

- Aminocaproic Acid 30% Suspension

Miscellaneous:

- Estradiol 0.01-0.03% Suspension
- Ethanol (all concentrations) Drops or Injectable
- Fluorouracil Solution 1%
- Glutathione 6% Solution
- Glycerin 99.5% PF or Preserved Suspension
- Hyaluronic Acid PF Suspension 0.5%
- Hyaluronidase Injection 150u/ml
- Phentolamine 0.083% Solution
- Rose Bengal Solution 1% Pres. Free or Preserved Solution
- Rose Bengal/Fluorescein Solution
- Saccharin Sodium 10mg/ml
- Sodium Chloride 5% Solution PF
- Sodium Chloride 5% Preservative Free Ointment
- Sodium Citrate 10% Solution
- Sodium Saccharin 2% Solution
- Thiotepa 1:2000/ 1:1000 Solution
- Vaseline Preservative Free Ointment
- Vitamin A 0.01% Suspension (All Trans Retinoic Acid)
- Vitamin A 0.01% Ointment (All Trans Retinoic Acid)
- Vitamin A 1%/ Vit C 1% /Glutathione 1%/DMSO 5% Sol
- Zinc Sulfate 0.25% Preservative Free Solution

Mydriatic:

- Homatropine Preservative Free Solution 5%
- Scopolamine 0.25% Preservative Free Solution

Staining Agent/Diagnostic:

- Brilliant Green 2% Stain
- Fluorescein Solution 0.2% -2% Preserved or Preservative Free

Sympathomimetic:

- Epinephrine Bitartrate Preservative Free Solution
- Epinephrine Borate Preservative Free Solution
- Epinephrine HCL 1% Preserved Solution
